

☆ Hello ☆

I am back with a new EP, yaaay!!

For those who don't know me, my name is Alice Tunney and I'm a French and English singer/songwriter!

I grew up between Rennes and London before moving to Dublin for my studies, where I ended up discovering busking and my desire to become a cottage core fairy dreamy alternative folk star.

Busking in Dublin was amazing and really made me discover how much I actually loved singing in front of a crowd, sharing music and emotions, learning songs but also composing and sharing my own music to new people from everywhere.

I'm so grateful about this experience that I then carried to London, Paris, Rennes, St Malo and Brussels where I am now based.

I have been writing and composing a lot since, and you can already find some of my work out there!

Moving around sometimes feels like starting over again and again, but my songs remain a little secret garden of all my emotions and I'm so happy that I get to make music, and I cannot wait for this next chapter!

Since my last song *Fin de l'été* came out, I've been spending a lot of time writing and creating new music, figuring out more and more what I want to say through it and what kind of world I want to build around it.

I've been experimenting and letting myself explore more, and I feel like I'm slowly getting closer to something that feels really true to me.

What do I want
to talk
about ?? ??

This EP will be carried by the usual gentle guitars, mellow pianos and subtle drums, but also more electronic sounds ; creating a whole new dimension for this project.

I'm really grateful for everyone who's been along for the ride. Whether you've listened to a song, come to a show, sent me a kind message, or just quietly followed along, thank you!!

You've helped me keep making music, and that means the world to me <3

Help me bring this EP to life ♡

I'm doing this EP independently, which means I get to build it exactly the way I want, but it also means covering all the costs that come with making a record: studio time, recording, mixing, mastering, musicians, and all the little things in between and after! I would love to record 6 songs depending on how this goes!

So I've set up this little money pot for anyone who would like to help me bring the EP to life.

Thank you for
helping
my
dreams
come
true ♡
xx

If you feel like contributing, whether it's a little or a lot, I'll be incredibly grateful. Every contribution will help me give this project the production, sound and space I've been working towards.

I'm really excited about where this EP is going, and it feels so special to be able to share the process with you too. If you'd like to be part of it, I'd absolutely love that.

And of course, if contributing isn't possible, that's completely okay! Listening to my music, sharing a song, coming to a show, sending it to a friend, or simply following along already means so much to me.

Where your contribution will go ♡
